Use of Narcotics Declared
on Increase

Most Addicts Are Found
Among Youths

BY FREDERIC J. HARKIN
(EXCLUSIVE DISPATCH)
WASHINGTON, July 5.—At the approaching session of Congress Representative Linderberg of the Ninth California District will introduce a bill carrying an appropriation for a world conference on narcotic education to be conducted in Philadelphia next June.

Mr. Linderberg made this announcement following the recent meeting in Los Angeles of the International Narcotic Education Association.

The League of Nations will be requested to call conferences at the same time and place of its opium committee, the mixed sub-committee of the health committee, and the advisory committee on the traffic in opium, and President Coolidge has been asked to invite all the world governments to join in the main conference.

EDUCATION NEEDED
The idea back of this movement is that the drug evil can be fought effectively only through education. Treatment of drug addicts results in permanent cures so rarely, it is stated, that recourse must be had to preventive measures, the chief of which is instruction in the home and in the schools.

Preceding the Philadelphia conference there is to be a program of intensive study and research, attended by widespread educational publicity. As a preliminary step Representative Linderberg is sending to every superintendent of education and every superintendent of schools in the United States fifty

PARK FIRE PERILS THOUSANDS

(EXCLUSIVE DISPATCH)

CHICAGO, July 5.—Lives of thousands of Sunday merry-makers were endangered early this evening when a rapidly spreading fire destroyed several buildings in the White City Amusement Park. Warned by park employees, the 16,000 or more persons in the park at the time moved out rapidly, but with a semblance of order. Several firemen, however, narrowly escaped death when a live electric wire fell near them. The loss is estimated at \$50,000.

copies of a document entitled, "The Peril of Narcotic Drugs." The first half of the document consists of material prepared by the International Narcotic Education Association, of which Capt. Richmond P. Hobson is president, and was passed upon and edited by a committee of experts.

USE ON INCREASE
Capt. Hobson says that the chief of the unit of the Treasury Department, having control of the narcotic division, likewise made constructive suggestions which were incorporated in the document. He stated that the question of the trend of addiction, the Treasury official believes that addiction is not on the increase. Capt. Hobson, on the other hand, believes that they are sure that it is.

On the latter point Dr. Amos O. Scoville, chief physician of Sing Sing prison is quoted as having said that there is no doubt in his mind that the use of drugs is increasing. He stated that the percentage of addicts admitted to Sing Sing has increased from 1919 to 1924 from 100 to 150 per cent. The statement of John W. H. Crim, Jr., assistant attorney-general of the United States, to the effect that addiction is unquestionably increasing, is also cited. About 40 per cent of the Federal prisoners sent to the Atlanta, Leavenworth and McNeil island penitentiaries are addicts.

Dr. Simon, of the New York police, is authority for the statement that while only fifty-eight ounces of heroin were lawfully prescribed by the medical profession of that city, in one year 15,000 ounces were consumed. It is asserted that 3000 young addicts can be created with one ounce of heroin.

Estimates as to the total number of addicts in the United States vary from 200,000 to 4,000,000, but it is recognized that accurate figures are unobtainable for the reason that many persons are able for years to conceal their practice of using drugs.

UNIVERSAL PROBLEM
Narcotic drug addiction is declared to be a serious universal problem which has become acute in America through the increase in the use of heroin.

"Without knowledge of this peril," says Capt. Hobson, "people, especially the young, fall easy victims to organized exploitation. Dealers will be costly to the nation in life and character and the stability of our institutions."

Mr. Crim, assistant attorney-general, in the manner of treatment of addicts, there being many methods with results equally varied. The consensus of expert authorities, however, it is stated, shows that the percentage of drug addicts who remain permanently sane is very small. The salvage is an important humanitarian matter, it can not be considered in any sense as a primary means of treatment.

Education alone is regarded as adequate treatment by those who are leading the literary and social forces. Quick information conveyed to people everywhere as to the nature of the danger they are confronted with, and the automatic instruction, which will be carried out in homes and schools, will, it is believed, cause the young to have a consciousness of the danger they are tempted, and this education continued through generations may lead ultimately to virtual immunity.

Judge McAdoo of the New York City Courts estimates that of the thousands of addicts who have appeared before him, 98 per cent were below the age of 30 years and 88 per cent were heroin addicts. Another authority says that 60 per cent of all the inmates of penal and correctional institutions in the city are users or sellers of drugs and that there must be in Greater New York alone close to 100,000 addicts of the underworld.

EXAMINE CANDIDATES FOR FEDERAL POSITION
GOVERNMENT OFFICERS GIVE ORAL QUIZ TO THREE AT SAN ANTONIO

(EXCLUSIVE DISPATCH)
SAN ANTONIO (Tex.) July 5.—Major Fred M. Oliver, attorney for the Interstate Commerce Commission, Washington, and W. J. Walsh of the Civil Service Commission, in Washington, were in San Antonio questioning candidates for appointment as special attorneys and examiners in valuation of railroad property, according to a recent Congressional act.

Forty attorneys and forty special examiners, similar to masters in chancery, are to be appointed following civil service examinations, according to Maj. Oliver.

Three candidates, who have already taken the written examination, were questioned orally by Maj. Oliver and Walsh in San Antonio. One lives in San Antonio, one in Seguin, and one in Austin. Their names were not made public.

The two government men came to San Antonio from Fort Worth and Dallas, Tex., where they had been giving similar examinations.

THROUGH TRAINS MAY RUN AGAIN

Direct Service to Mexico is Considered

Officials of Gulf Lines Urge Co-operation

Fast Passenger Schedules Contemplated

(EXCLUSIVE DISPATCH)
SAN ANTONIO (Tex.) July 5.—Intimations of re-establishment of through train service from Monterrey and Tampico, Mex., to Houston and San Antonio by Matamoros and Brownsville, with fast passenger-train service, including Pullmans, and with the present practice of having mixed trains being discontinued, have been received at Brownsville, Tex., from Manuel Chavero, superintendent of the Monterrey division of the national lines of Mexico.

Chavero stated that the Gulf Coast line officials are seeking this service and have urged co-operation of the Mexican road in re-establishing through service and in other improvements. This co-operation has been promised and early announcements of proposed changes in service is expected, the railway official said.

Features of the proposed changes are a much faster service, the run from Houston to San Antonio to be made in ten hours, making it possible for these trains to connect directly with the fast trains from Houston and San Antonio to Brownsville.

For the past few months, since the discontinuance of the Pullman service from Houston to Tampico, mixed trains have been making the run from Matamoros through Monterrey to Tampico. The new plans call for local trains to carry the freight and cargo between cities along the route, with the fast trains for passengers only.

A fight for restoration of this service has been carried on not only by the Gulf Coast line officials but also by Mexican Consul General A. C. Vasquez of Brownsville, who took the matter up with Mexico at the instance of the Merchants' Association of Brownsville and the Matamoros Chamber of Commerce.

COTTON IS FORCED LOW OVER WEEK
Issuance of Bureau Report Thursday Causes Drop of \$5 Per Bale

(EXCLUSIVE DISPATCH)
NEW YORK, July 5.—Cotton prices during the past week have been steady until the issuance of the bureau report on Thursday, when prices lost \$5 per bale. The report was completely forgotten in the reports from the South which have been the dominating factor in influencing values, and the continued drought in the Southwest has attracted attention. The deficiency of subnormal moisture in Texas is now becoming an important factor, as each day that passes brings in pessimistic reports as regards the crop conditions in the Southwest. While it may seem premature to speak of a crop failure in Texas, there are such predictions based on present conditions. The bureau report placed the Texas crop at about 4,273,000 bales based on their acreage and condition figure of June 15, but according to private investigations there are fully 2,000,000 acres in South Texas that have never been planted or if they have the cotton has never come up.

While such conditions may exist at present, the seriousness of the drought was completely forgotten when the bureau issued a report indicating an acreage of 46,448,000 acres and on this acreage forecasted 14,133,000 bales, with a condition of 75.9 per cent. The acreage figure was much larger than any of the private reports had forecasted, and perhaps greater efforts had been made by the department this year than during any other season to check up the correspondents' figures on acreage. Automobiles with automatic acreage meters have been used, and in this way the bureau has been able to estimate the percentage of error found in farmers' reports.

The weevil reports have been increased but according to the Department of Agriculture entomologists, the hot, dry weather has checked the damage, and as the eastern belt has been abnormally dry this year, the farmers are extremely optimistic. Many messages from the central valley, and the Mississippi delta, regions are now talking of bumper yields.

Trade conditions have improved in the local markets recently, owing to the warmer weather. There has been a heavy demand for lightweight cotton goods, but the issuance of the bureau report will check business and make for more apathy among goods buyers. With a large crop of cotton in prospect, buyers will buy carefully.

SILK AVERED AID TO HEALTH OF WOMEN
ENGLISH PHYSICIANS PROTEST PROPOSED TARIFF DUTY ON FABRIC

(BY CABLE—EXCLUSIVE DISPATCH)
LONDON, July 5.—Physicians have lined up against the duty on silk, asserting that it is a blow at the health of the women of the empire. Dr. Percy Hall, elaborating on the protest, declares that women's health today depends on silk.

"Never have women been so healthy nor so attractive as today," he asserts. "A generation ago the average woman was a flannel petticoat and a shawl across her shoulders while she sat by the fire and crocheted."

"Today the woman of 40 looks 20, plays golf and tennis during the day and dances far into the night and then is first down to breakfast in the morning."

She is emancipated, both in body and mind and appears to have captured the veritable elixir of youth. What has she done? Simply cast away those super-

PINCHOT AFTER PEPPER'S SEAT
Mellon Forecast of Campaign
Treasurer Neglects Liquor Law
Movement Survey Cited as Answer

proaching Pennsylvania political campaign, in which Pinchot is expected to seek the Senatorial seat now held by Senator Pepper, Republican National Committeeman, and one of the leaders of the State organization. It has long been evident to political observers here that the Governor would endeavor to make prohibition enforcement one of his principal issues. Previous attacks on Secretary Mellon, generally regarded as the dominant influence in organization affairs, have been construed as echoes of such a purpose.

In the course of his Portland speech, the latest of a series on the same theme, Gov. Pinchot declared the Treasury head to be out of sympathy with the prohibition law, and to have refused to carry out the duties of his office. Although no reply came from Secretary Mellon during the day it was pointed out by Treasury officials that an official statement issued last week answered the Governor's charge rather emphatically from the Treasury viewpoint. The Secretary's statement coupled with a review of the government fiscal operations for the year ending June 30 declared the plans of the Treasury to make prohibition enforcement effective "were rapidly approaching consummation," and voiced the belief that "as a result of its experience and development the Treasury is better organized and equipped to make the Volstead Act effective."

In recent weeks, although the state primaries are almost a year distant, the Pennsylvania executive has sought to revive the prohibition issue, presumably as a forerunner of the Senatorial contest. Senator Pepper, according to authoritative advice, will have the unqualified backing of Secretary Mellon, Senator Reed and the Republican State organization. Although Pinchot has made no announcement of his plans, it has been assumed for months that he would seek the Republican Senatorial nomination as an anti-organization candidate.

ENTIRE FAMILY ON POLICE ROLL
Father, Mother, Five Brothers Have Been Officers
Husband's Death Led Widow to Matron's Post
Twins Don Uniform on Reaching Their Majority

NEW YORK, July 5.—Five brothers and a father and mother all on the police force within the last twenty-one years. That is the record of a family named Lourea, with the establishment of the new list for patrolmen made public here.

James A. and Joseph A. Lourea, who live with their brothers and mother at 40 Pack Slip, are the two latest additions to the city's force. They are twins and finished within less than a half of 1 per cent of each other in the examination. Joseph, the younger, was ranked 10,235, stands ninth on the list, and James, with 10,236, is fifteenth. An unusual feature of the two is that their fingerprints are almost identical, although all the other brothers show the usual dissimilarity.

George Lourea, their father, died twenty-one years ago, a few months after the twins were born. He had been on the force fourteen years then. At his death, with five children on her hands, the eldest of them 5 and the youngest only a few months, Mrs. Lourea found a police widow's pension too small. She obtained an appointment as police matron and is still on duty at the Mercer-street station.

George Lourea, II, has been on the force five and a half years. He is a second-grade detective attached to headquarters, Manhattan. Walter, 24, has spent four years in uniform, and William, 24, one year. Both the latter are attached to the Old Slip station.

George smilingly declined that any of the boys had ever done anything particularly worthy of note.

"I guess the reason we all joined the force is just because father was a cop. And then mother has been a matron ever since he died. It was just in our blood. We were all clerical workers before we were appointed," he said.

Questioned further as to whether he or his brothers had distinguished themselves, he suddenly recollected.

"Oh, yes, the big fellow—that's Bill—made a pretty good catch down on John street a few years ago. He saw two men leaving a drug warehouse about 3 o'clock one morning and he stopped them. They had \$15,000 worth of stolen goods in containers. They made a break, but he caught them. One's in Sing Sing, the other in Elmira. Pretty good for the big fellow, too, he'd only been on the force a couple of months."

PIERS READY FOR ESPEE'S NEW BRIDGE
Seventy Miles of Grading Completed Between Gila and Hassayampa Rivers
PHOENIX, July 5.—The piers of the new Southern Pacific bridge across the Hassayampa River, west of Phoenix, have been completed and footings are being placed for a new bridge across the Agua Fria, twenty miles west of this city. The Agua Fria structure will be a short distance below the present Southern Pacific piling bridge. About seventy miles of grading has been completed between the Hassayampa and the western crossing of the Gila River. Wells have been bored at several points on the waterless plain, with unexpected results, as a good supply of water has been struck at all points. The deepest at only 140 feet. Rails are being laid out from Wellton and track work will be started from the Hassayampa as soon as the grading of the new bridge is in place.

MINNESOTA HAS HUNDRED WOMEN IN PUBLIC POSTS
MINNEAPOLIS (Minn.) July 5.—The State of Minnesota has not less than 100 women in public office at present. Officers elected by them range from clerkship of the Supreme Court to keeper of the morgue in St. Paul. In forty-three counties—half of the State—the superintendents of schools are women.

MUSTER DAY ACT PLANNED

Congress Will be Asked to
Set Defense Test

Enrollments Are Lower Than
Last Year

General Staff to Study
Result of Call

(BY A. P. MONT WIRE)
WASHINGTON, July 5.—Within two months from today, when complete reports of what happened yesterday in the second nationwide defense test muster are received at the War Department, a study will be initiated by the General Staff to determine how future inventories of America's defense shall be made.

The question whether national defense tests shall be held at a fixed date each year, as has been the case, or whether the musters shall be divided as to time and by components of the three-part Army of the United States, already has come to the forefront. Army authorities unanimously declare the tests fully proved their value and that the popular support given them throughout the country was sufficient for the department to use as a basis for requests that Congress authorize the holding of similar musters every year.

DIVISIONAL TESTS
There are those who contend, however, that since President Coolidge has said the authority of Congress must be obtained before a test is made an annual event, such authorization would be more readily given if sought in the form of divisional or corps area musters, held at various times each year, and not simultaneously with the Army as a whole. These questions and others will be placed before the officers elected to make the study of yesterday's muster and it is largely on the basis of their conclusions that the future test policy will be decided and Congressional authorization sought by the War Department.

Regarding the muster yesterday, Maj. Gen. John L. Hines, chief of staff, said today that incomplete reports so far received from the nine corps area commanders indicated the response "was more than two-thirds as great as last year." It was estimated that an aggregate of 15,000,000 persons participated, while the last year 16,000,000 civilians, exclusive of the Regular Army, National Guard and Organized Reserves, took an active part.

DROP TEST TODAY
This reduction, Gen. Hines said, "is due to various adverse factors. Several Governors did not participate, though they could require the participation of the National Guards of several States. The fact that the Fourth of July was a Saturday naturally reduced the test participation. The weather was an important factor."
"On the whole, however, considering the manifold difficulties under which the test was conducted, it is believed that the results are generally satisfactory. Especially is it to be noted that the complete plan is more complete than last year's. They show that the country is on the right track in regard to the policy of national defense, that is, the one fixed by the National Defense Act. They show that the Army has the right track on its decision to mobilize by communities in case of another unfortunate emergency."

RECORD SEEN FOR STUDEBAKER SALES

PROFITS ALSO GREATER AS
FACTORY SETS NEW
MARK FOR QUARTER

(EXCLUSIVE DISPATCH)
SOUTH BEND (Ind.) July 5.—Record sales and profits for the Studebaker Corporation of America are forecast by President A. R. Erskine in a statement issued today following a second-quarter sales 48 per cent greater than the same quarter last year.

Mr. Erskine's statement says: "July's production and sales will exceed those of any previous July in the corporation's history, with results for the third quarter will doubtless be 100 per cent above those of last year."
"Sales of the second quarter just closed were 43,046 cars, against 28,152 in the same quarter last year. April increased 28 per cent, May increased 41 per cent, June, 1925 increased 112 per cent over June of last year. After all charges and tax reserves are deducted net profits for the quarter should exceed \$5,000,000."

The second-quarter sales of 42,046 cars were 2000 above the schedule that had been set for the quarter. Paul G. Hoffman, formerly of Los Angeles, is now sales manager of the Studebaker Corporation.

SOMEWHAT REVAMPED
A lawyer who is also an enthusiastic chicken fancier spends much money coddling hens that are too "high-class" to work. One year he had several hens guaranteed to be the best sort of layers, yet morning after morning they returned empty-handed from their search for eggs.

He had almost given up hope, but on the morning of his birthday he was surprised to find four beautiful, pearly eggs in the nest. He gathered them up, planning to eat them triumphantly he would send them to his skeptical wife. Not until he reached the door of the house did he notice that each one bore the neatly penciled greeting: "Birthday greetings from the old hen."—[Exchange]

TO KEEP YOU GUESSING
What is the difference between donkeys and postage stamps? One you lick with a stick and the other you stick with a lick.
Why should a man named Ben marry a girl named Anne? Because he would be Bennie-fied and she Anni-mated.
"Why is last month like a game of golf? Because it is a past-time."
What is the difference between a bottle of medicine and a naughty boy? One is to be shaken before taken and the other is to be taken and shaken.—[Pittsburgh Chronicle-Telegraph]

FLOODS START GOLD HUNT

Erosion Caused by Recent Storms in Kern Mountain Area May Reveal Rich Placer Deposits

(EXCLUSIVE DISPATCH)
BAKERSFIELD, July 4.—Fortunes in placer gold may again be found in the mountain and desert regions of Kern county, as a result of the terrific storms of the past week. Cloudbursts and avalanches of water, according to old prospectors, may again reveal millions of dollars in nuggets and fine gold.

Acting as a great arrastre in grinding up boulders and segregating the nuggets and fine gold, the great avalanches of water that recently swept down Red Rock Canyon from Plute Mountain, in the Sierra Nevada Mountains, sixty miles east of Bakersfield, were an active force upon thousands of tons of virgin rock.

Red Rock Canyon, Goler and the Summit Diggins, scene of extensive placer mining in early days, were the center of a number of violent storms.

UNCOVER HIDDEN TREASURE
Estimates indicate that the avalanches of water and rock disintegrated the mountainsides as much within a few hours as would ordinarily occur from weathering within half a century.
Each avalanche on its journey from a mountain like Plute in the Randersburg district then unnamed, says the history, "Even though the water was so hot, the difficulties of desert mining discouraged the majority of the party from continuing."

"They all drifted away except Moore, who went back to the Summit Diggins, worked and his placers there, and then, in partnership with John Singleton and C. A. Burdham, went back to the Randersburg district."
"One night when they had been away from the camp and were coming home late they lost their way and made camp in a gulch. They slept late, and when Moore opened his eyes in the morning to the sun was glinting on little patches of free gold in the rock above his head."

"Burdham got his hammer, struck the rock and laid bare before the dazed eyes of the three prospectors the treasure of the Yellow Aster. This was in the fall of 1895."

LAD SAVES TWO FROM FIRE

Boy, Ten Years, Rescues Little Playmates Trapped in Burning House in Boston

(EXCLUSIVE DISPATCH)
BOSTON, July 5.—The modesty of Hubert James LeFave, 10 years of age, a Melrose schoolboy, of 19 Berkeley street, is as refreshing as a June shower.
Hubert, while out visiting with his mother, dashed into a burning building and looking down square in the eye without a tremor, rescued two little playmates, aged 3 and 4 years, from a burning house. The fire occurred about two weeks ago but it is only now that the identity of the hero has come to light, and Hubert's heroic call has become known only as a result of the determined efforts of the Melrose police and firemen to learn his identity.

"The children would have perished had it not been for the young hero. There is no doubt of this, the firemen and police agree. As for my rescue, Hubert told me about as well as anyone. Here is his version:"

"I was sitting on the front porch of the next house to 3 Field Court with my mother and some other children when I saw a fire in the house next door. I saw the smoke and I saw the fire. I saw the smoke and I saw the fire. I saw the smoke and I saw the fire."

MEXICO PUSHES JAZZ WAR
Appeal Made on Patriotic Lines for Boycott Against Discardant Companion of Bobbed Hair Invasion

(BY JACK STARR-HUNT)
(BY CABLE-EXCLUSIVE DISPATCH)
MEXICO CITY, July 5.—Several months ago the Ministry of Education here was appealed to by the Mexican newspapers to fight tooth and nail against that "Bendish importation from the United States known by the name of jazz music." Another appeal on jazz has been launched by the paper this time appealing to the patriotic chord in its fight against jazz, which, with bobbed hair and other American importations so much in contrast with staid and timid Mexican womanhood, is making its inroads into the habits of the Mexican fair sex of the present generation. Many women now smoke cigarettes with gusto in public, something which a decade ago was unheard of in Mexican society.

"That music of negroes, known as jazz," El Universal assails and says must be banished from Mexico. It makes a strong appeal to "close the ears of the rising generation to the discordant jumble of tunes, supposed to be music, which has invaded our national musical centers here of the higher and classical types are practically united in the general assault being launched, throughout Mexico, against jazz, that noisy invader from the north."

The campaign has in a great measure been successful and many jazz halls have abandoned the craze here and resumed their former picturesque dressed native orchestras with their soft, melodious guitar and castanet performances. The campaign has attained its end in the humble quarters of the city also. Jazz is still firmly entrenched in the fashionable restaurants, however, and few of them are without the American "go get 'em" music.

Putting It Alternately
"Good morning, Madam," said the caller, on one bright winter morning in the early part of December. "Is your husband at home?"
"He is not," said the lady of the house.
"May I ask where he is?"
"He is down at the pond at the foot of the street."

"Well, if the ice is as thick as he thinks it is, he's going skating. If it's as thin as I think it is, he's gone swimming."—[Courier-Journal, N.Y.]

Theory and Fact
"At last, my angel," said the happy man, after he had settled with the minister, "we are really and truly one—forever."
"Theoretically, yes," rejoined the minister, "but from a practical standpoint it will be advisable to order dinner for two."
[Toronto Globe]

Modern Lights for Oldest Town
The oldest town on the North American mainland, Truxillo, in central America, which was discovered by Columbus in 1502, has a modern system of electric street lights, fed by a twelve-mile 11,300-volt transmission line.

FANNIE HURST GIVES WARNING

Real Fabric of Humanity
Elusive, She Says

Her Characters Are Not
Hand-Picked

Writer Tells of Her Day's
Round of Work

(EXCLUSIVE DISPATCH)
CHICAGO, July 5.—Fannie Hurst, en route from New York and a typewriter, to California and another typewriter, hurried over in Chicago long enough today to tell through the Taylor and Halstead-street district, the Westside ghetto, and to talk of writers' habits and her runners' funerals and American fiction and of internationalism.

And through each paragraph of conversation, this writer who is heralded for her understanding of human nature warned against the danger of being entangled in just the fringe of human understanding and mistaking it for the real fabric.

For this fringe, Miss Hurst says, is a dangerous thing and beguiling. It's the sort of trickster that convinces readers, and writers, too, that "that author certainly does know Peoria." When what that author really knows is merely the exact location of the Peoria postoffice; the nickname of Peoria's Mayor; and the real story of why Peoria's Mrs. Hennahs her hair.

But that's not human understanding, says the author of "Humoresque" and of "Lumoux." In order to swing clear of this deceptive fringe, Miss Hurst, in her books and plays and short stories, does not take characters, and writers, too, that "that author certainly does know Peoria." When what that author really knows is merely the exact location of the Peoria postoffice; the nickname of Peoria's Mayor; and the real story of why Peoria's Mrs. Hennahs her hair.

"There is no rule of thumb by which I get characters, or plots, or settings," Miss Hurst explained. "I presume everything I have ever read, or heard or experienced, helps, without any very definite connection."
"I get up at 8:15 every morning," she grinned as she made the confession, "but I do not get up whistling. I get up groaning, for I spend the next hour and a half with a resolute Swedish trainer. When I think I'm going to die, he mentions, somewhat scornfully, that my workout is nothing compared to the things he's made Rudolph Valentino and Mrs. Valentino do."

"Which doesn't make me feel any less tired."
By 8:30 Miss Hurst is at her typewriter and she stays there until 9 o'clock. And the person who keeps this lady at her typewriter is the same person who married her eleven years ago last May, Jacques Danielson, the New York pianist-composer, with whom she lives part time. Of this matrimonial experiment she refuses to speak, except to point out that it is no longer an experiment and is a glorious success.

"I don't mean that he is a slave driver for work, or that he even suggests that I write this or that. But I will outline to him an idea and he will say, quite casually, 'You could do that. And so, of course, I do it.'"

Catholics to Open Meet in San Francisco

(BY A. P. MONT WIRE)
SAN FRANCISCO, July 5.—The eleventh biennial national convention of the Catholic Daughters of America will open here tomorrow with an all-day reception program. The sessions, which will continue four days, will be devoted chiefly to committee reports. The convention banquet will be held tomorrow night.

During the convention an exhibit showing the activities of the State chapters, representing a membership of 300,000, will be open to the public. Delegates from all parts of the United States, Canada, Cuba, and Porto Rico will be in attendance.

Safety for Milk Drinkers
Sterilization is a process by which the temperature of milk is raised high enough or maintained long enough to destroy all germs and spores. This method is so-called because it gives the milk a boiled taste. In pasteurization the temperature used is high enough only to destroy most germs, including disease germs, such as those of tuberculosis and typhoid. (Pittsburgh Chronicle-Telegraph)

Temblors Change Face of Nature in Montana and Wyoming

THE most spectacular result of the disturbances in Montana and Wyoming was the slipping of Sheep Mountain and the resultant damming of the Gros Ventre River in the Jackson Hole country of Wyoming. The slide was approximately a mile wide and carried millions of tons of mountainside into the valley, effectually blocking the river and causing the formation of a lake which will eventually be approximately seven miles long, a mile in width and in places 500 feet deep. Above, the lake in process of formation is shown.

SEISMIC disturbances in Montana and Wyoming which, according to scientists, are manifestations of a continent-wide seismic activity, have occasioned grave fears for the wonders of Yellowstone National Park. While no marked disturbance has been felt in the park, officials report that many of the geysers in the Norris Geyser Basin have been affected to some degree. In instances active geysers have ceased to play and new geysers have sprung up in the vicinity. The park territory affected is pictured in the above photograph taken by Mode Wineman of Pasadena. Top panel shows Norris Geyser Basin. Large photo at right is view of the Grand Canyon of the Yellowstone. Large photo at left shows Economic Geyser, type of geyser affected. Photo directly above caption shows Lone Star Geyser. (Camera Studies by Mode Wineman.)

Middle panel shows great cracks in the Gros Ventre wagon road, now closed to traffic, and photo at right shows base of Sheep Mountain with debris of slide piled high. The gash in Sheep Mountain (left background) is a mile wide. (P. & A. Co.)

NEW YORK

WINNERS SET WORLD RECORD

Comites Tie Another in
San Francisco Meet

Osborne Cops Decathlon and
Shatters Old Mark

Hollywood A. C. Athletes in
Spectacular Scrap

(SPECIALS DISPATCH)
SAN FRANCISCO, July 5.—Harold Osborne, Illinois A. C. star, shared record-breaking honors with the New York A. C. this afternoon at Kesar Stadium, when he broke the world's record in the decathlon and Gotham runner broke the world's record in the 440-yard relay and equalled the world's best mark in the 880-yard relay on the closing day of the national A. A. U. championship. Fast races of the New York club started some 5000 spectators by winning every relay race in the program from the quarter-mile to the four-mile event. Most of the relays were not even close-contested, so fast were the paces of the club's speedsters on the championship New York quarter-mile relay, the Gotham club romped away with the high honors in the senior championships and came back even stronger today to humiliate their competitors in every event.

GREAT PERFORMANCE
Harold Osborne, world's record-holder in the high jump, member of the Illinois Athletic Club, performed superbly in every event of the decathlon and annexed another world's title, breaking the record held by Alan Klumberg, who scored 7706.39 points, and topped the old record by 177 markers. This athlete from "Windy City" club clearly demonstrated that he is really the most versatile athlete on track and field in the world. Osborne broke the decathlon record by leaping 62 ft. 11 in. He ran the 110-meter hurdle race in the remarkable time of 18 4-16. In the broad jump he cleared 21 ft. 5 1-4 in. He placed first in the pole vault with a height of 12 ft. In the javelin he hurled the spear 164 ft. He shot 38 ft. 5 1-4 in. He threw the discus 122 ft. 10 7-16 in. He hurled the 160 meters in 11 5-16 in. He ran the 440 meters in 1 m. 48 s. and he rounded the track in the 400-meter race in 43 1-4 s. Some day's work for any man.

EQUALS RECORD
The New York A. C. started off with a series of victories in the relay races by equaling the world's record in the 440-yard relay. For the half-mile relay in the first event of the afternoon, McDonald led off and secured a comfortable lead, passed it to Alan Woodring, former Olympic Games champion. Joe Brown, star Holly Cross 440 man, rounded the lead over the Olympic man and Jackson Scholz, Olympic premier sprinter, who had the New York team ahead of Barber of the Olympic team. There is no doubt but that another record would have been set by the boys.

The New Yorkers, not satisfied with equaling one world's mark, broke the record in the 440-yard relay, beating the old record set by a previous New York A. C. team composed of Wafar, Love, and...

NEW YORK A.C. IN CLEAN-SWEEP VICTORY IN NATIONAL A.A.U. RELAYS

WINNERS SET WORLD RECORD

The Another in San Francisco Meet

Some Caps Decathlon and Others Old Mark

Several A. C. Athletes in Spectacular Scrap

NEW YORK, July 5.—(Associated Press.)—The New York Athletic Club, which won the national A.A.U. relay championships at San Francisco yesterday, set a world record in the 4x100-meter relay, winning in 1:50.4. The team consisted of Alvin Krumpholtz, John Dwyer, and two others. The victory was a clean sweep for the New York A.C., as they won all four relay events. The decathlon and other individual events were also won by New York athletes. The meet was held at the San Francisco Athletic Club and was one of the largest and most important in the country.

Johnston and Griffin Trim Snodgrass and Westbrook to Win Doubles Title

TIMELY SPORT TOPICS AS SEEN THROUGH THE CAMERA'S EYE
The upper left picture shows Frank Hussey, New York Athletic Club, winner of the 100-yard dash in the National A.A.U. meet at San Francisco Saturday. Scholz came second and Hubbard third. The upper right picture shows Jimmy McLarin and Pancho Villa, world's flyweight champion, fighting hard in the ninth round of their bout at Oakland Saturday. McLarin won the decision. The middle picture shows Charlie Weinert going through the ropes at a Dempsey. Harry Williams sent Carlos spinning into the press box last Thursday night at the Polo Grounds. The end came in the second round and marked Weinert's closing bid for a crack at Dempsey's title. The lower picture shows Dave Shafe scoring his sensational knockout victory over Jimmy Slattery in the third round of the Polo Grounds show.—[F. & A. photos.]

LOCALS BEATEN IN FOUR SETS

"Little Bill" Star of Great Battle at Net

Winners to Represent State in National Play

Southern Team Puts Up Hard Fight for Title

"Little Bill" Johnston, the mighty atom of tennis, was the actuating force of the team of Johnston and Griffin that defeated Harvey Snodgrass and Walter Westbrook yesterday in the finals of the Pacific Coast doubles championship by scores of 4-1, 2-4, 6-3, 1-6 at the Los Angeles Tennis Club. The victory gives the northerners the right to represent California in the national championships at Forest Hills this summer. They made another attempt to smother the atom yesterday, and failed again. Johnston is slight. His arms and wrists are thin, his shoulders small. On the same court with Griffin, his partner, and Snodgrass and Westbrook, his opponents, he looked like a boy playing with men. But after the gallery that had jammed its way into the grand stand saw a ball flash in the sunlight, barely top the net and heard it whistle through the air, Johnston's size was forgotten and he became an atom, small but packed with strength and energy.

BILL JOHNSTON

SERAPHS TAKE PARKING SPACE IN THIRD PLACE

Barfoot Deals Sixth Win in Row; Hood and Beck's Stick-Work Features Double-Header

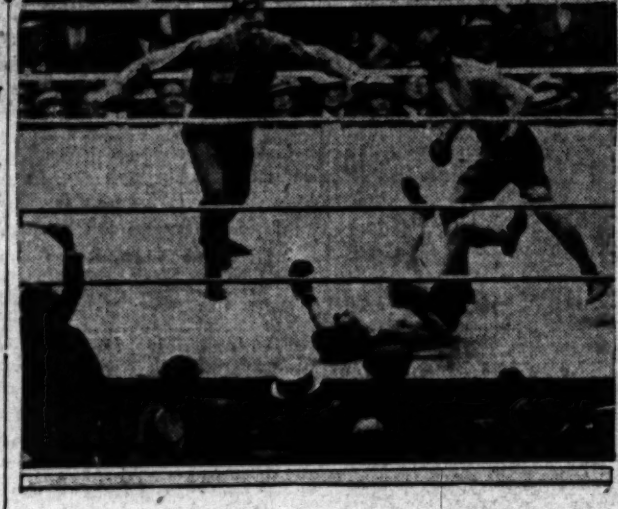

After dropping the first game, 6 to 2, because of inability to hit the offerings of Clyde Barfoot, the Angels came back and slugged out a 9-to-4 victory in the sundown shift, climbing back into third place and capturing the series, five games to three.

Barfoot had everything his own way in the opener, holding the shagging Seraphs to seven hits and turning in his sixth straight victory. It was the Tiger hurler's eleventh win of the season, which is pretty good for a chucker with a tail-end club. The Bengals bunched nine off Whitey Glazner in the third, fourth and fifth frames to score all six of their runs, giving Barfoot a safe lead to work with. Wally Hood kept up his sensational hitting streak, banging out three hits in the first game and two more in the second. Hood gathered nineteen safe swats during the week off the Tiger hurler, clicking the ball at a .476 pace for the week. Wally raised his season's average more than sixteen points during the week, and is now hitting over .354. Clyde Beck had a great day at bat in the finale, driving out three doubles and two singles for a perfect day. Ray Jacobs, Beck's Boy Scout pal, also had a perfect average in the afternoon, getting three hits and two walks off Sylvester Johnson.

GOTHAM IS DODGED BY CHAMPION

Helen Wills Slips Away to Forest Hills to Get Ready for Tourney

NEW YORK, July 5.—Helen Wills, the national women's tennis champion, has stolen a march on the tennis world. While officials and players have been looking forward to her arrival here some time next week, Miss Wills has been out of New York since Friday. Quietly, and without any announcement from the Pacific Coast, she left for the East last week, and with her mother is now quartered at Forest Hills. There, on the courts of the West Side Tennis Club, Miss Wills will practice this week, leaving on Saturday for Boston, where she will play in her first eastern tournament of the year. Mrs. Hazel Hotchkiss Wightman, with whom she holds the national Olympic and English doubles titles, is conducting a tournament in connection with the men's Longwood Bowl classic, and Miss Wills will be numbered among the contenders.

NEITZEL TRIMS THOMPSON, 2 AND 1 FOR CITY TITLE

Hollywood Ace Wins Municipal Crown After 35-Hole Battle That Thrills Record Gallery

Earl Neitzel, fast-traveling Hollywood golfer toured thirty-five holes to win the city municipal public golf championship 2 and 1 from Harold Thompson, flashy 19-year-old Oakmont Ace over the Warren G. Harding Memorial Course in Griffith Park yesterday. With a record gallery on hand to witness the championship play, the Hollywood youth and his even more youthful Glendale opponent left the first tee in fine style for the long thirty-six-hole grind that wrote a growing page in the city's golf history at 9 o'clock yesterday morning. Thompson, popular University of California, Southern Branch, sophomore, drew first blood with a par 4 on the difficult third hole. Neitzel cut loose with a beautiful twenty-foot putt that won the next hole with a par 4. Continuing their championship play the battling golfers halved the next three holes, but Neitzel dropped another long

MOTORBOAT CLASSIC AT ISLAND OFF

Rough-Going at Catalina Causes Postponement of Hydroplane Race

CAATALINA ISLAND, July 5.—A choppy sea made dangerous by the plying of pleasure boats, steamboats and hundreds of small craft carrying vacationers, who have swamped Avalon the last three days, caused all plans for today's special 181-type hydroplane race to be given up. Yesterday's rough-going

WHOLE SHOW
To describe the match, one has only to tell of Johnston. He was the real opposition to the sparkling play of the southerners. Peck Griffin played good tennis. He was steady and smart, but he was only an auxiliary. Snodgrass and Westbrook played most of their shots to him but when they made a mistake and played to Johnston, the result was usually disastrous. Johnston played like a man possessed. He stepped into flying shots and drove them back, half an inch over the net, at a speed that made the locals simply cower and trust to luck. Or else, he smashed high lobs down so fear-

GAS CRATER SWALLOWS STEEL DERRICK
Dominguez Field Witnesses Most Novel Spectacle in History

Union Oil Gets Largest Recent Rosecrans Well

CRATER large enough to swallow an ordinary dwelling which actually did swallow a 115-foot derrick with all its drilling machinery and equipment, was in the Dominguez field, as the result of a gas well, which blew continuously for thirteen days. The Shell Company's Reyes No. 27, which is now being drilled, it buried itself in a grave of its own digging.

Reyes No. 27 began spouting gas, water and mud on June 1, and at the height of its eruption it expelled between 30,000,000 and 40,000,000 cubic feet of gas a day, and more than 100,000 barrels of fresh water. An actual gauge of 105,000 barrels of water was taken, and this roaring torrent ran in an artificial river bed for days, and was used by the neighborhood farmers for irrigation.

One of the significant features of the blowout was that at no time was there a trace of oil, according to William C. McDuffie, operating vice-president of the Shell Company. Another remarkable fact was that the water expelled from the well was even fresher than the tap water used for domestic purposes in that neighborhood.

On the thirteenth day after the blowout started the well had erupted so much of the formation that cave-ins occurred, and the flow was stopped. Shortly afterward the surface began to give way, and a short time later the steel derrick slid down into a cavity more than 100 feet deep, and was demolished.

A similar incident occurred about three years ago, when a well drilled by the Associated Oil Company in the Huntington Beach field blew out a crater after gassing for a few hours, and engulfed the derrick and drilling machinery.

WORK AT MINE RESUMED
WILCOX (Ariz.) July 5.—W. A. Bondurant of Los Angeles has resumed operations at the camp of the Gold Slope Mining Company, fifteen miles from Wilcox. A gold mine is about completed.

As He Understood It
A little 8-year-old was pleading to be allowed to go out to play. His mother became rather cross and said: "When I see you, you shall go, not before." The boy repeated into silence while his mother went higher and higher about her work. In half an hour he inquired: "Mamma, have you seen him yet?"
"Seen who, child?"
"Why, seen Fil?"—(Boston Transcript.)

All Agreed
Spangler: Don't you think the younger generation is going to the bad?
Blissom: I'm sure of it. I remember hearing my grandfather say that his father was of the same opinion.—(Exchange.)

Just So
Julia: Getting married is similar to using the telephone.
Jack: How so?
Julia: One doesn't always get the person one wants.

GAMBLE OF OIL GAME SHOWN BY COMPARISON OF FIGURES

Speaking of deep wells, the cost of drilling them, and the probability of getting back the money that is put into them: The General Petroleum Corporation's Clock and McWhinney No. 1 well on Signal Hill, which was drilled more than a mile deep, and has been producing from a depth of 8018 feet for perhaps eighteen months, has yielded 578,000 barrels, against an expense of \$119,000.

The Clock and McWhinney No. 2, which is producing from a depth of about 4900 feet, has put 806,000 barrels into the tank, against an expenditure of approximately \$100,000.

In the Rosecrans field the General Petroleum Corporation's Amestoy No. 1 is reported to have cost approximately \$125,000. It is pumping from an extreme depth, bottom being at 6737 feet, the yield being rather wet, and the clean production measuring eighty-nine barrels a day.

It is considered rather doubtful that this hole will ever pay for itself, but it enjoys the distinction of having the deepest production sand in the world.

NEW ISSUE
\$135,000
MONTEREY HILLS LAND AND IMPROVEMENT CORPORATION
First Mortgage 6 1/2% Sinking Fund Bonds
Dated June 15, 1925
Due June 15, 1935
Coupon Bonds
Denominations \$1000 and \$500
Redeemable on thirty days notice at 103 and accrued interest. Interest payable semi-annually June 15th and December 15th at Pacific Southwest Trust and Savings Bank, Los Angeles.
PACIFIC SOUTHWEST TRUST AND SAVINGS BANK, LOS ANGELES, TRUSTEE

EXEMPT FROM CALIFORNIA PERSONAL PROPERTY TAX
INTEREST PAYABLE WITHOUT DEDUCTION FOR THE NORMAL FEDERAL INCOME TAX OF 2%

These bonds are secured by first mortgage on the property of the company, located in the City of South Pasadena, consisting of about 80 acres known as Monterey Hills. This property has been divided into 258 lots, of which 176 have been sold for a total of \$298,788.54. Of this sum there remains unpaid \$150,625.79, which is represented by contracts of sale which are being paid on a monthly basis. These contracts, as well as those created by future sales, will be assigned to the Trustee as additional security for this issue of bonds.

The mortgaged property has been appraised for us by Metcalf and Ryan, Realtors, at \$338,000, and is valued by the owner as follows:

Unsold lots at list price	\$175,000.00
Face value of contracts	\$236,435.00
Less amount paid thereon	85,809.21
Balance to be paid on contracts	150,625.79
Total	\$325,625.79

A TOTAL OF APPROXIMATELY TWO AND ONE HALF TIMES THE MORTGAGE
All payments received on present contracts, as well as interest thereon, must be used as follows: first to accumulate the amount necessary to meet the next maturing coupon, and second to retire bonds of this issue.

WE CALL ATTENTION TO THE FOLLOWING STRONG FEATURES IN THIS ISSUE

Bonds are secured by first mortgage on property that is conservatively worth 2 1/2 times the debt.
Constant reduction of debt through the action of the sinking fund, as well as assurance of ready market for bonds in case of resale.
A large portion of the proceeds of this issue to be used in construction of houses on this property, thereby increasing the security for the loan.
The loan is self liquidating through the action of the sinking fund.

ANNOUNCEMENT
THE COMMONWEALTH HOME BUILDERS, one of the oldest building companies in the City of Los Angeles, is now under the management of **METZLER & COMPANY OF CALIFORNIA** and has moved its offices to their ground floor quarters at 727 South Spring Street.

The company will probably discontinue its building operations, in which event it will engage in other lines of activity.

The company has resources of over \$600,000 invested in mortgages and interest bearing securities.

The investing public is offered an unusual opportunity to purchase first mortgages yielding **SEVEN PER CENT** interest on houses occupied by the owners at forty per cent of the original sale price of the property.

These mortgages are offered with full insurance protection from fire and earthquake. In many cases the ground alone is worth the amount of the mortgage.

KERN COUNTY HAS AIRPLANE FIELD
BAKERSFIELD, July 5.—Kern County is now in possession of an airplane field, which in the opinion of Col. Lahm, chief of the western district air service, is second to none in the United States, as far as quality is concerned. The acquisition of the field is the result of a five-year lease with the Kern County Land Company for the 100-acre aviation field lying northwestern of Bakersfield, officially located as being in the northeast quarter of Section 19, 29-27. Named as trustees to the lease by the Kern county airport committee, are E. Curtis Clark of Delano, E. B. Duncan of Bakersfield and H. A. Hopkins of Taft.

JO MEN TAKE OVER BALLAS SILVER MINE
AJO (Ariz.) July 5.—Walter L. More and a number of other citizens have purchased the Ballas silver property, sixty miles east of Ajo, and are installing a milling plant, from which shipments will be made of lead-silver concentrates.

WOMAN IS KILLED ON SPORT RIDE

Plunges to Her Death from Venice Roller-Coaster as She Stands Up

By a "Times" Staff Correspondent
VENICE, July 5.—Hurled from a rapidly-moving roller-coaster to the Venice pier forty feet below when she attempted to stand up in the car as it descended a steep dip, Mrs. Irene Henry, 31 years of age, 745 West A street, Ontario, died early this morning in Martin's Hospital, Santa Monica, where she was removed after the accident.

According to the report made to Venice police, Mrs. Henry, accompanied by a friend, Miss Edna Armstrong, 315 1-2 South Carondelet street, Los Angeles, started off late last night for a ride on "The Giant Dipper," one of the most thrilling rides at Venice. On one of the steep dips Mrs. Henry is said to have stood up and a jerk of the car tossed her over the trestle framework to the pier.

Mrs. Henry landed on her head, suffering a basal fracture of the skull, a broken jaw, hip and right ankle, in addition to numerous other injuries. When rushed to the hospital she was treated by Police Surgeon Joseph Baylin and remained alive until 4 o'clock this morning.

Her body was removed to her Ontario home this morning by her stepfather and mother, Mrs. John W. Anderson. An inquest has been called to determine the cause of the accident.

CITIES JOIN CRUSADE TO STOP FIRES

Children Circulate Cards Pledging Elders to Save Forests From Devastation

The "Stop Forest Fires" campaign of the California Development Association has been joined by eighty-three cities. It was announced by Charles G. Durood, of the association's conservation department. Children in these cities are circulating pledges among their elders, worded as follows: "To save growing forests for growing children, I pledge myself to keep fires out of our great wealth of forests and watersheds. This campaign will continue until the 15th of July, when many thousands of pledge cards already have been turned in.

The California Forest Protective Association, California Redwood Association, California White and Sugar Pine Manufacturers' Association, and the Southern California Association of Southern California are aiding the Development Association in sponsoring the movement, and have the co-operation of chambers of commerce, civic commercial organizations and Boy Scout executives.

BORROWERS OF OVERDUE BOOKS HIT

Library Patrons Owing Fines on Volumes Loaned Threatened With Suits

At the request of the Public Library the City Prosecutor's office has notified thirty-one patrons of the library that unless they return overdue borrowed books action will be started against them. Samuel Wardlaw, special investigator of the library, told the office that in some cases fines as high as \$18 have accumulated on the borrowed books and efforts to have them returned have failed.

Many of the books are held by college students, the investigator said. The office declared that it will take out embargoes against the delinquent patrons if the books are not returned within the time specified.

Chief Investigator Poland of the Prosecutor's office declared that he will take out embargoes against the delinquent patrons if the books are not returned within the time specified.

CHURCHMEN SEND THANKS

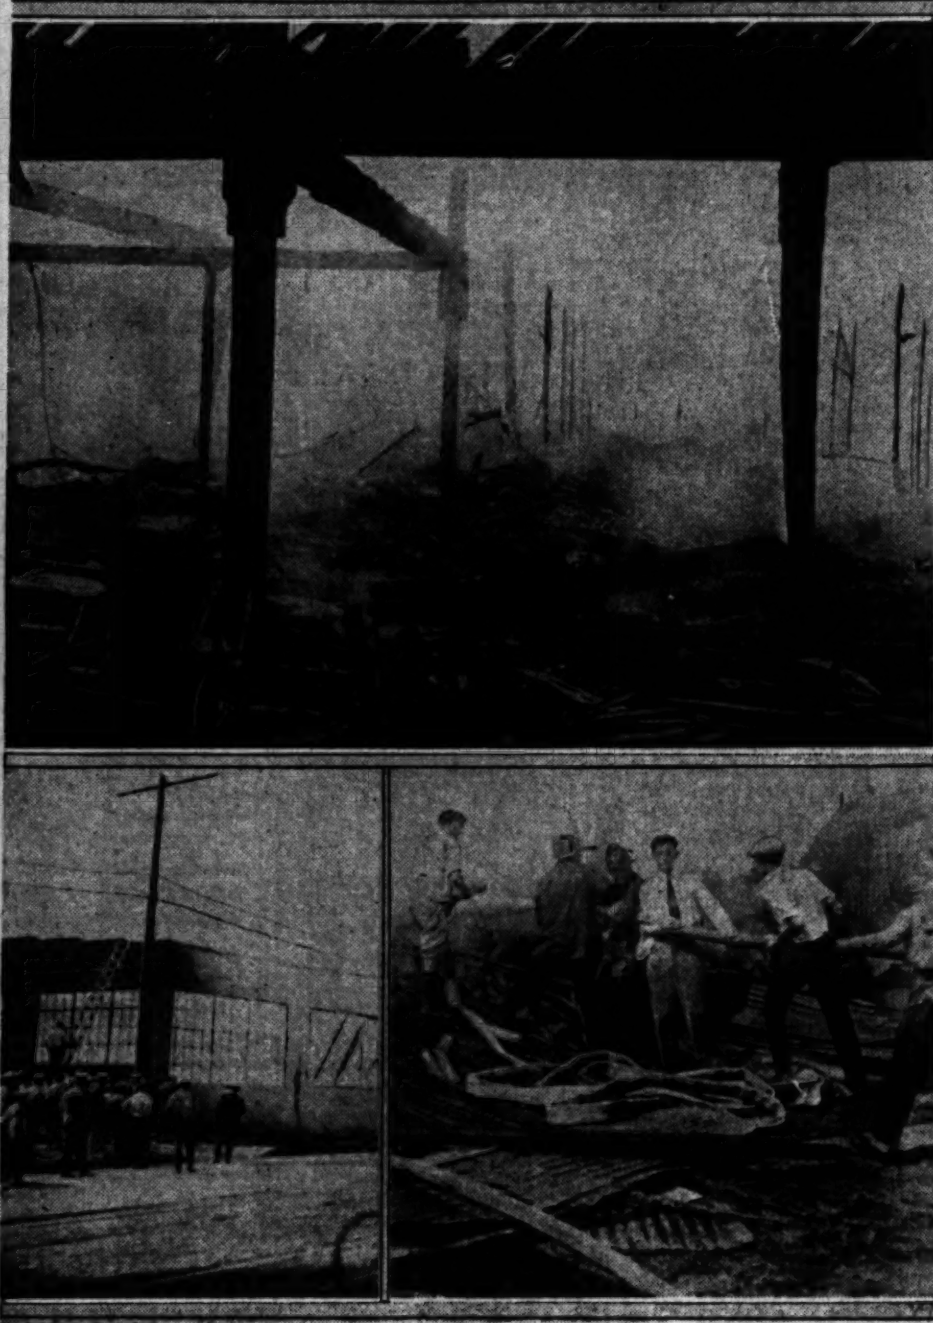

The City Council has received a resolution of thanks from the bishops' council of the African Methodist Episcopal Church for donations provided by the city during the recent convention of the council held in Los Angeles.

CITY LEASES BATHING BEACH

For Initial Improvements on Strip of Land at Point Fermin Is Set Aside

The city of Los Angeles has taken the first step toward the actual acquisition of a strip of ocean beach for a municipal beach. At its last meeting the commission entered into a thirty-year lease with the Board of Harbor Commissioners to take over approximately five miles of ocean frontage extending around Point Fermin.

Conflagration Takes Heavy Property Toll

Blaze Wreaks Havoc in Building
Above—Smoldering remains of J. H. Jones & Sons' mattress factory at 5841 South Park avenue, following disastrous blaze yesterday afternoon. Below—Two views of city and volunteer firemen attempting to check the flames.

Y.W.C.A. Camp is Open to High School Girls

Camp Estelle, the Y.W.C.A. camp in San Antonio Canyon, two miles beyond Camp Baldy, is open to high school and junior high school girls during July. Business girls will be in camp during August.

The girls may hike, swim, tell stories, give entertainments and study nature.

Girls should register at the Y.W.C.A., 941 South Figueroa street. The next party leaves today at 9 a. m. for the Pacific Electric Sixth street station. Girls do not have to be members of the association to go to the camp. Two weeks is the average time a girl stays at the camp, although they may stay longer if room is not needed for newcomers. The camp hosts high school girls, a week board, and business girls, \$10 including transportation costs of \$5.

FILM FIRM FIGHT ENDED

Dissolution of Partnership Ordered as Result of Row Over Starring Wives

A motion-picture venture in which two partners accused each other of seeking to feature their respective wives in a production known as "Reality" met its legal demise in Superior Court when Judge Hollister ordered a dissolution of the partnership in favor of Archibald M. Foote, one of the partners.

The litigation was started by R. H. Gardner, who asked for a dissolution and an accounting on the ground that Foote had possession of the books of the partnership and refused to make an accounting or permit Gardner to examine the books. The pair were doing business under the firm name of R. H. Gardner Productions, it was said.

HUMAN COYOTES ROB SETTLERS

Homesteaders on Government Lease of Absence Victimized by Systematic Marauders Whose Operations Have Resulted in Losses of Many Thousands

Gone is the chivalry of the old West; gone is the hospitality to every wayfarer. Instead there is suspicion and mistrust.

The cause is the "desert coyote," skulking humans that prey upon the homestead property unprotected for a few months while the owner is on government leave of absence.

On the Mojave Desert the settlers are in arms and more than 100 complaints have been filed within the last few months with Brainerd B. Smith, register of the United States Land Office in Los Angeles. Thousands of dollars' worth of property has been stolen from homesteads by systematic marauders.

TODAY'S BIBLE TEXT

"And be ye kind to one another, forgiving one another, even as God for Christ's sake hath forgiven you." Ephesians iv. 32.

WIDOW OF W. B. SCOTT SUCCUMBS

Native of Maine Had Been Resident of Los Angeles for Thirty-three Years

Mrs. Luna M. Scott, widow of W. B. Scott, died early yesterday morning in her home at 315 South Lafayette Park Place. Mrs. Scott was 64 years of age, and had been ill for four months of a year.

Funeral services will be held tomorrow afternoon at 2 o'clock in Pierce Brothers' chapel. Interment will be in the Inglewood Cemetery.

Mrs. Scott was a native of Maine, and came to Los Angeles thirty-three years ago. Here she married W. B. Scott, independent oil operator and president of the Columbia Oil Producing Company.

Woman Believed to be Angelino Killed in Crash

Mrs. Marguerite Langnick, 6155 Buchanan street, is believed to have been killed, and two other Los Angeles persons injured, last Friday night in an automobile accident south of Rossmore Beach, according to meager reports reaching here yesterday from San Diego. The body of the dead woman was taken to San Diego last night. Identification is not positive, although the parents of Mrs. Langnick, Mr. and Mrs. Frank Suval, admitted yesterday their daughter is missing and reports of an accident had reached them.

Charles Le Bas, Sportsman and Planter, is Dead

Charles Cochran Le Bas, 67 years of age, widely known sportsman and wealthy coffee plantation owner of Java, died yesterday morning at his home in Oceanside, Cal.

Mr. Le Bas was born in London, Eng., and had lived in Southern California thirty years. He organized the Santa Monica Golf Club and the Los Angeles Cricket Club and was a member of the Lord's Cricket Club of Marlborough, England. He was first cousin to the Duke of Roxborough.

ELKS' CLUBHOUSE PRAISED

Grand Lodge Member Declares Structure Here Is Finest of Kind in United States

John C. Karel of Milwaukee, a member of the Elks' Grand Lodge, took travel in hand yesterday afternoon and laid a symbolic finger in the entrance structure to Memorial Hall, in the \$2,500,000 clubhouse being built by Los Angeles Elks' Lodge No. 99 at Sixth and Park View streets.

PLANS NO-STOP DRIVE EAST

Lieut. Wade Will Attempt to Keep Both Wheels and Motor in Continuous Motion on Trip to New York

Lieut. Leigh Wade, of world flight fame, is now seeking recognition before the great American motor tourist as an authority on transcontinental auto tours, and is getting ready for a nonstop wheel and motor drive from Los Angeles to New York.

Lieut. Wade, with his assistant, Linton Wells, former newspaper man, will leave here at noon the 18th inst., and expects to complete the trip across the continent in six days and three hours. An official observer of the American Automobile Association, sponsoring the test run, will ride in the car all times. The observer will be picked up in relays along the route.

DELAY ON CITY HALL IS COSTLY

Yearly Rent of \$60,000 for Needed Room Revealed

Expansion of Departments Brings Added Costs

Expense to Continue Until Building Goes Up

That the delay in building a new City Hall, for which \$7,500,000 in bonds for the site and building were authorized two years ago, is costing the taxpayers at least \$60,000 a year paid as rentals for additional space became known yesterday by an examination of the budget of the city government for the fiscal year, which began last Wednesday.

With the growth of Los Angeles, the business of the city government has increased. The long ago proved insufficient in size, and the amount of outside office space rented for city departments has increased steadily.

For the fiscal year, which began on the 1st inst., the city will pay \$17,500 for the rent of the entire south annex of the City Hall. This is much greater than last year due to the fact that the engineering department has taken over the Broadway street floor of the building. The city will pay this fiscal year \$12,000 for the offices of the City Attorney located in the Byrne Building at the northwest corner of Third street and Broadway.

Expansion of the engineering department and the enlargement of the membership of the City Council made necessary the renting of space outside the City Hall for the City Attorney.

The engineering department has expanded gradually until it occupies all of the Prunswick Building adjoining the south annex of the City Hall extending to Third street. The rental of rooms in this building will cost \$7500 this year, and other departments put the total charge this year above \$60,000.

If the new City Hall is not ready for occupancy in less than four years then the city will spend at least \$240,000 for rentals, even if the rented space is not increased.

Mayor Croy, in his inaugural address to the new City Council, urged that a committee be formed at once to iron out all differences as to jurisdiction over the appointment of an architect for the City Hall so that work on preparation of plans for the new building can be started at once. While the architects are working on plans, the raising of the buildings on the City Hall site can proceed without delay. At the time the plans are completed and approved the site, bounded by First street, the new Spring street, Temple street and Broadway, will be cleared for the new \$5,000,000 municipal building.

Woolwine Kin Passes Away in Tennessee

Hamilton Shields Woolwine, uncle of Thomas Lee Woolwine, former District Attorney for Los Angeles county, died suddenly yesterday at his home in Nashville, Tenn., according to word received by W. D. Williams, agent of age. He was secretary of the Southern Wholesale Grocers' Association, and during the war was the head of the United States Food Administration in Tennessee. He leaves two daughters, Mrs. Wade Perry and Miss Virginia Woolwine of Nashville; three brothers, W. D. Williams, James Woods R. Woolwine of Los Angeles, and Eldred A. Woolwine of Nashville. His wife died about three years ago. J. E. and Thomas Lee Woolwine of Los Angeles are surviving nephews.

FIREMAN IS INJURED

Falls from Truck Which Swerved to Avoid Collision

C. J. Segura, 27 years of age, a fireman of Engine Company 15, was out and bruised yesterday when he fell from a fire truck that skidded when the driver dodged a milk wagon.

The fire truck was en route to the Receiving Hospital. The fire truck was answering a call to Tenth street and Union avenue.

HAS PAPA RIGHT TO SPANK SON? ATTEMPT TO CURB MORE ELECTIONS

Pasadena Jury Has Ruled on Question
Verdict to Remain Sealed Until Today

Case Outgrowth of Recent Public Whipping

By a "Times" Staff Correspondent
PASADENA, July 5.—In a little white envelope marked "Jury Verdict," do not open, and reading in the Pasadena police department's safe, lies the decision of twelve men which will interest every American home. In other words, the contents of the envelope will disclose whether or not a father has the legal right to thrash his son.

The jury listening to the case of J. Frank Ware, former deputy constable of Altadena, charged with disturbing the peace at the American Legion dance hall, where he broke up the party by severely thrashing his 10-year-old son, whom he found there, deliberated for three hours and when a verdict was reached the judge had gone home. As a result the verdict was returned "seal," and will not be opened until tomorrow morning. Ware is also charged with carrying a concealed weapon.

On the stand the father admitted setting out of bed and driving to the dance hall with strap in hand. Finding his son sitting on a bench with a young lady, he immediately put the strap into action. He was later overpowered by dancers who left the floor and surrounded the pair.

Ware's attorney, Walter Richards, contended in court that the father had the right to chastise his son in the public hall as much as in the sanctity of his own home and in so doing he was training the boy and protecting his own honor.

Leo Riccardi, the prosecutor, contended that the demonstration was uncalled for, that the father had no right to administer the blows under the circumstances and in so doing he was training the boy and protecting his own honor.

The little white envelope in the police safe will tell what the jury thinks about it.

Boy Scouts to Give Film Show for Camp Fund

BURBANK, July 5.—The Boy Scouts of Troop 1 have completed plans for a benefit performance Thursday night at the Loma Theater.

The management having donated the theater on that date. The proceeds of the entertainment will go to swell the Scout Camp fund.

The program includes a preview of P.B.O. studio's latest success, "Speed Wild," by "Lafayette" Flynn and Jack Hoxie who will be there in person with other well-known film folk.

A comedy, a two-reel Scout picture and high-class vaudeville numbers will round out the program.

The Scouts of Troop 1 will leave Burbank on the following morning for their summer camp, which is located five miles from Big Bear Lake. The boys, who will be gone for six days, will be in charge of Scoutmaster M. E. King and his assistant, Roscoe Dunham.

MANY TO ATTEND SCHOOL AT VENICE

By a "Times" Staff Correspondent
VENICE, July 5.—Summer studies at the Venice Polytechnic High School will be started tomorrow when more than 100 pupils will continue their academic tasks. The course will extend over a period of six weeks, it was revealed this morning.

Pupils who wish to finish ahead of the regular four-year schedule will be allowed to attend the courses. The school was originally opened for students behind in their studies, who were desirous of catching up with back work. Teachers have been employed to conduct the summer classes. Executives of the school point out that tuition fees have been placed on a scale where virtually all desirous of attending may do so.

PROMINENT BROKER IN JAIL AT SANTA MONICA

By a "Times" Staff Correspondent
SANTA MONICA, July 5.—J. W. Hood, said to be a prominent Los Angeles broker, is in the City Jail awaiting arraignment on a charge of driving while intoxicated.

Hood is asserted to have crashed his automobile into the front of a car driven by Guy Hammond, employee of a local battery station. The accident occurred at the intersection of Third street and Wilshire Boulevard yesterday. No one was injured, although both machines were badly wrecked.

Hood was arrested by J. E. Anderson, humane and special officer.

TAKES CHARGE OF COUNTY CHARITIES

By a "Times" Staff Correspondent
TUJUNGA, July 5.—Miss L. Presnon, as field visitor, is now in charge of the county's charities. According to a statement by W. H. Hoad, county charities superintendent, to the City Trustees of Tujuanga, the county is now spending about \$15,000 a year for the support of its charity patients in this section. Miss Presnon will work in conjunction with the county's health department's valley headquarters at San Fernando. Most of the money spent out is for groceries.

CITY WANTED TO FIGHT TRAIN THEFT RING NAMED BY SUSPECT

Time Was When Small Community Declared War On Government of Mexico

By a "Times" Staff Correspondent
SANTA MONICA, July 5.—Information was given out by Superintendent F. P. Martin, that no increase in the tax rate in this district will be made during the 1925-26 year. It is believed the increased valuation will be approximately \$4,000,000, which will produce \$50,000 for elementary schools and \$50,000 for the high school.

New teachers, more equipment and improvements are needed in the senior high school building, Martin says.

Rates for different districts are: high school, 42 cents; elementary school, 22 cents; and kindergarten 15 cents. Budget for the elementary school for the year is named at \$160,120, covering all of the operating expenses. In the high school district it is \$445,000. It was revealed that a balance was left in all funds last year.

When the operation cost until taxes are collected next fall.

Budget figures adopted by the board last night, the County Superintendent's office for approval and then placed before the Board of County Supervisors.

LOSE OUT IN FIGHT FOR WAGES

Fresno Unions Consent to Continue Under Old Contract After Strike Threat

By a "Times" Staff Correspondent
FRESNO, July 5.—Strike clouds which darkened the Fresno labor horizon for several days past were dissipated today by the announcement of organized labor leaders that members of the teamsters' union who are employed by the city's leading ice cream companies will remain at work and will renew an old agreement which was terminated on March 1, instead of pressing their demand for a pay increase of \$1 per day for teamsters, helpers and platform men.

The decision of the men was reached at a union meeting Friday night, it was stated, when the men almost unanimously voted to withdraw their demand for a new agreement. The new agreement sought by the men originally provided wages of \$7.75 per day for teamsters, and \$7.75 per day for platform men and helpers, an increase of \$1 per day for all classes of employees, in addition to which reduction in working time from nine hours to eight was sought, with provision made for unionizing the 15th and 16th streets.

The men also voted to continue under the old agreement, which provided for a pay increase and a requirement that the companies furnish work clothes. The men also voted to continue under the old agreement, which provided for a pay increase and a requirement that the companies furnish work clothes.

School Men Lie in Wait for Editor

By a "Times" Staff Correspondent
PASADENA, July 5.—Here's a tip for the editor of the School Board Journal: When you are in the city limits of Pasadena, Pasadena, right now, is a very unusual place for this reason: there are no less than three angry school officials seeking his scalp.

Pasadena school officials are expected to meet at the annual high school commencement, which will be held in the city limits of Pasadena, Pasadena, right now, is a very unusual place for this reason: there are no less than three angry school officials seeking his scalp.

Arrangements have been made for the celebration of the 14th anniversary of the school's opening, which will be held in the city limits of Pasadena, Pasadena, right now, is a very unusual place for this reason: there are no less than three angry school officials seeking his scalp.

GRADUATE SALESMEN

By a "Times" Staff Correspondent
GLENDALE, July 5.—Harold J. Stoner, executive secretary of the University of Southern California, will deliver the principal address at the graduation exercises of the Glendale Realty Board's class in the study of real estate, to be held in the auditorium of the Wilson Intermediate School on the night of July 15.

BENEFIT CONCERT FOR SANTA BARBARA FOLK

By a "Times" Staff Correspondent
LONG BEACH, July 5.—A benefit performance, the proceeds from which are to be sent to Santa Barbara, will be given in the municipal auditorium here Thursday night, it was announced today.

John Ardison, noted baritone and head of the Ardison School of Music, will be heard in a recital and a number of talented musicians will appear on the benefit program.

Determination to stage the concert was reached here following receipt of new advice from the stricken city that the need for relief money there is greater than that of any other city in the world.

It is hoped to add, by means of the benefit concert, a substantial sum to the fund being raised here for victims of the earthquake that shook Santa Barbara last Monday.

MISSION ACRES CLUB NAMES NEW OFFICERS

By a "Times" Staff Correspondent
MISSION ACRES, July 5.—The Mission Acres Women's Club has announced its new officers for next year, following the last session of the club for this year. They are: Mrs. J. M. Andrews, president; Mrs. James Daly, vice-president; Mrs. G. W. V. recording secretary; Mrs. Calvin Tetter, corresponding secretary; Mrs. A. E. Hartman, federation secretary; Mrs. M. C. Dickey, treasurer; Mrs. W. B. Harris, auditor; and Mrs. Gordon Tilden and Mrs. H. Kubler, directors. Mrs. C. M. Beecher is the retiring president.

Beach Crowds Over Holiday Well Behaved

By a "Times" Staff Correspondent
SANTA MONICA, July 5.—Although holiday crowds at beach districts were undoubtedly the largest of any Fourth of July in history, only minor accidents were reported at beach city police stations.

One of the reasons for the remarkable "safe and sane Fourth," according to beach officials, was that fireworks were exploded by experts under municipal supervision.

Thousands of bathers splashed in the surf all the way from Torrance to the north end of the beach, and toward the end of the afternoon the tremendous throngs of people in places without a drowning being reported.

Police of Santa Monica, Ocean Park and Venice, assisted by details of special officers, worked far into the night preserving order among the throngs who were reported that the crowds showed a splendid spirit of co-operation, only a few arrests being made for minor disturbances.

SERIOUS ACCIDENTS

Two Hurt in Auto Crash and Boy Horribly Injured

By a "Times" Staff Correspondent
RIVERSIDE, July 5.—Nate Edwards, 24, of Los Angeles, and Mrs. Violet McCormick of Hyde Park, were in the Riverside Community Hospital in a serious condition as a result of an automobile accident on the San Diego road near Murietta, south of here, early this morning.

Mrs. Anna Carson of Los Angeles, who sustained a broken jaw and minor injuries in the accident, was released from the hospital today.

State traffic officers stated that they will hold Edwards for investigation if the driver of the wrecked automobile lives. According to information obtained by the officers, no other car figured in the accident which resulted in the injuries to Edwards and the two women.

Louis Miller, 35, of Owensmouth is in the hospital with a broken back sustained today when a horse on which he was riding another youth threw him against a tree by the roadside. Physicians hold his recovery as doubtful.

WIDOW IS HOMELESS

By a "Times" Staff Correspondent
ONTARIO, July 5.—Mrs. F. O. Hutchinson, a widow, and her seven children were homeless today as the result of a fire which last night completely destroyed their twelve-room ranch house at the corner of 15th and Fifth streets.

The fire started at the eaves near the front of the house and spread to the roof. The fire department responded to the alarm but was unable to check the flames. All members of the family escaped in safety and practically all the furniture was removed from the first floor. The loss is reported at \$12,000 of which only \$2000 was covered by insurance.

MADE CAMP IN DANGEROUS SPOT

By a "Times" Staff Correspondent
PASADENA, July 5.—When Edwin R. Sorensen, past president of the Pasadena Chamber of Commerce, and his wife arrived in Santa Barbara recently to view the earthquake damage it was late at night and so the couple parked their car and made their camp on the flat space they found.

In the morning their peace of mind was given a rude shock. They found their flat space to be nothing else than the top of the hill, which had collapsed at the first quake and released thousands of gallons of water on the stricken city. Closer inspection disclosed that the top itself was badly cracked and might fall at any minute.

The Sorensens made their camp elsewhere.

REPORT IS MADE ON AMUSEMENT CENTER

By a "Times" Staff Correspondent
LANKERSHIM, July 5.—Promoters behind the Lankershim amusement center which will be topped by an electric tower and have a swimming pool, theater and dance hall, state they expect soon to receive a permit to sell stock from the State Corporation Commission. Bids are reported to be in hand for the construction of the pool and tower and other units of the project. The new company has taken the name of the San Fernando Valley Amusement Center, and in building the amusement center here, hopes to cater to the pleasure seekers from all over the valley.

SOCIETY MATRON HURT AT YACHTING PARTY

By a "Times" Staff Correspondent
UPLAND, July 5.—Mrs. John Dawson, prominent Upland society woman, was at the San Antonio Community Hospital today suffering from a bad fracture of the left arm sustained last evening at Wilmington, when she slipped and fell on a gangplank while boarding a yacht with a party of friends. The injured woman was brought to the hospital here by ambulance.

Mrs. Howe is a daughter of Robert Keith, prominent Kansas City (Mo.) furniture dealer.

CONFESSOR NEGRO FINE

Tells Police He Burned Shop

Case Baffled Many

By a "Times" Staff Correspondent
GLENDALE, July 5.—Down under the Glendale police station, a confession of being incendiary, damaged the District Attorney's office for the past two weeks. The case was baffling to the police, who had been unable to find the man who had burned the barber shop last night.

Riley is reported to have confessed that he had burned the barber shop last night in a spirit of revenge, adding that he had been in the shop at the time of the fire. Riley was arrested several hours after the fire at the break of fire at the police station. Riley was charged with the case by Chief J. M. J. after they had searched the files of the police and were convinced that Riley was the man who had burned the barber shop last night.

ABOLISH OFFICE

By a "Times" Staff Correspondent
PASADENA, July 5.—The office of Assistant City Manager will be permanently abolished, it was announced today by the Board of City Trustees. The office of the assistant city manager has been a subject of discussion for some time, and the Board of City Trustees has decided to abolish the office. The duties of the assistant city manager will be taken over by the city manager.

ZELDAH, July 5.—The road to life of the city of Zeladah was paved today by the city of Zeladah. The road was paved with asphalt and will be a great benefit to the city. The road was paved by the city of Zeladah and will be a great benefit to the city.

VENICE TO CHANGE LIGHTING SYSTEM

By a "Times" Staff Correspondent
VENICE, July 5.—That this city will be divided into lighting districts to take the place of the system of "relays" is indicated in the action of the Board of Trustees, who have instructed city electricians to prepare a plan for a new system of lighting.

It is pointed out that in many districts lighting at the present is not effective. The system of relays now being used is given as the reason why lighting costs are exceptionally high. The city electricians are expected to prepare a plan for a new system of lighting.

The realization of women's economic potential has been the purpose. The advertiser recognizes that New York's most extensive establishment, and the largest branch in New York City, is a branch. The future of the branch in Los Angeles may be measured by the opening of a new branch in New York City. To a man or woman with capital ability and \$10,000 which will be under a year, the advertiser offers a business opportunity, a secure exclusive rights and the right to sell the product. For more information, write P. FALKINHAM, 1948 So. Highland Park, FALKINHAM, L. A.

WANT \$10,000 FOR YEAR, 10% TO INVEST IN OPERATION OF MARVEL SUPERLATIVE BUSINESS PRODUCTS COMPANY. THE COMPANY IS NOW OFFERING SIMILAR CONCERN MAY BE INTERESTED IN THIS OPPORTUNITY.

TO UNVEIL LONG-TOUCHED
THAT SHOULD MULTIPLE INVEST-
MENT OPPORTUNITIES FOR THE FUTURE
THINKING MAN OR WOMAN. ADDRESS:
A-1, BOX 634, TIMES BEACH.

HAVE 15 years of real estate ex-
perience in all branches. Have been
from the East 3 years ago. I am now
making money selling what I know
best—commercial property. I have a
constant stream of business with a large
number of companies, good profits. Want a
partner with \$10,000 to \$20,000 and
\$10,000 to join me. This is a real
opportunity and no chasers. References
furnished. Call evenings or mornings.
507-412.
